

APPLICATION DEADLINE – APRIL 29, 2016

HONORS PROGRAM IN SOCIOLOGY

The University of Oregon Honors Program in Sociology provides qualified students with the opportunity to write an honors thesis by working closely with faculty members and fellow honors students on a year-long empirical research project of their own design.

The Sociology Department encourages students to apply for admission to the Honors Program in Sociology if they are planning to pursue advanced training in sociology, if they are interested in more direct applications of sociology, or if they simply desire a more challenging academic experience. As a departmental program, it is not limited to students enrolled in the UO Honor College. Any junior or senior sociology major who meets the qualification criteria is eligible to submit an application. Upon successful completion of the program requirements, the honors distinction will be noted on your official transcript and your diploma, and both you and your research will be recognized at the departmental graduation.

Applicants must demonstrate a high level of competency and motivation for advanced studies in sociology, demonstrated by *either* a high GPA (no lower than 3.4 in at least 12 units of sociology courses) *or* nomination by two faculty members in sociology. Students must apply *during the Spring term prior to their junior or senior year, no later than April 29, 2016. The application form is on the other side of this sheet.* Applicants must provide an unofficial transcript, list their grades in upper division sociology courses, describe a possible thesis topic, and name a possible faculty advisor. In particular, please note your grade in SOC 311 (Introduction to Social Research). Additional copies of the application form are available in the Sociology Department Office (736 PLC) or on the Department's website.

Students accepted into the Honors Program in Sociology must enroll and take part in the Honors Seminar (SOC 407) during fall and winter terms of their JUNIOR or SENIOR year and enroll in Honors Thesis Research credits (SOC 403) in winter and spring terms. In Honors Seminar, participants work closely with the Honors Program advisor and other honors students to design a research proposal and identify a primary thesis advisor from among the UO Sociology faculty. In Honors Thesis Research students work independently with their individual thesis advisor and proceed with data collection and analysis. The thesis is due during spring quarter.

If you need more information or have questions, contact CJ Pascoe, Honors Program Advisor, at cpascoe@uoregon.edu, 541-346-1384, PLC 720.
